

STANDING-UNDER LISTENING

FOR UNDERSTANDING, STAND UNDER WORDS
LET THEM WASH OVER, THROUGH AND AROUND YOU

What has been said or written

Desires and dreams

Discord and differences

Unconscious presences and absences

What is unstated but relevant

What is fuzzy, not clear

Both speaker and listener

- *Realize and acknowledge their own fluid and particular standpoints*
- *Imagine how these words, in their various forms, affect others as well as themselves*
- *Let what has been said and absorbed stay with them, to inform their next actions, their politics, their ethics, their civility*
